Why is Einstein so famous? Well, because he is promoted by the Jewish Supremacists, because he is Jewish, and they wanted a big famous Jewish Scientist. That is why Albert Einstein is promoted so much. He is such an iconoic figure and it is just way overdone. Time Magazine actually named him man of the Century at the end of the 20th century. Number Two They selected Adolf Hitler, if you selected Hitler, Hitler really deserved to be man of the Century, Hitler probably effected the 20th century more than anything other. Another problem with Einstein is that he wrote a letter to president Teddy Rosevelt in 1939 suggesting that they should develop an atomic bomb to attack Germany, because the Germans may be doing one. So Einstein was supporting Joseph Stalin back in the 1930's when he knew that Stalin had killed tens of Millions of People and White Christians, So Einstein himself was a Jewish Supremacist. If you mentioned this at school you would be expelled, then arrested on the spot, period, no contest. Einstein was also a Zionist, Also Communism was Created By The Jews to take over and Hitler was actually Anti Communist and Anti Marxist. Einstein like most jews was actually a communist and supported communism, The Schools all brainwashed you didn't they. So Einstein was not good. He was not good for this world or Earth as they call it. His first wife he didn't treat very well, Then he had a second wife and slept around a lot also as well. He slept around with lots of different Women, did not treat his wives very well. The reason why he is so promoted is because The Jewish Supremacists control our Media and Educational System. They control our Universities also, So they push Einstein on us day by day. They also push out other Teachers and Professors that are more worthy. So Einstein is way over rated, he was not that great, he is not really the father of the Modern Age such as Nikola Tesla, they even offered Einstein to be the First President of Israel which is just a load of

BS. This was back in 1948. He was so revered. It shows you how politically Zionist He was. He was a strongly self identified Jew with Jewish Supremacist Causes. So do you have faith in Science, do you have faith in Universities? Universities, Professors, they are all controlled by the Jewish Supremacists, and Einstein was a Big Jewish Supremacist, he was in thick with the whole ideology. If you go back to the Protocols of the Learned Elders of Zion you will find that you will probably see Albert Einstein Mentioned somewhere in there. So I am not to fond of Albert Einstein. Was he intelligent? Yes. Was he a good Physicist? Yes. He lectured at Cornell University for years in front a bunch of Physics Students. However he is way over rated and way over hyped. This is because he was a Jew and Jews wanted to have a Great Jewish Scientist, because they at the time did not have any Jewish Scientists until Einstein. It was more of a Womens Liberation kind of thing, except it was for Jews LOL. They wanted there to be a Big Famous Jewish Scientist Called Einstein. It just had to be, it was a Big Public Relations Stunt Deal. One thing that people do not appreciate is Nikola Tesla, he was the greatest inventor of all of history, he was a contemporary of Albert Einstein. Who today remembers Nikola Tesla? Nikola Tesla was the father of the modern age and Alternating Current and Transformers. He came up with the Radio. He came up with the Fluorescent Light Bulb, before Jews decided to put mercury vapour in it, thus damaging the environment some more, Thomas Edison was very impressed with Nikola Tesla also. Tesla was not that impressed with Thomas Edisons Methods. When Thomas Edison was dying he said, "I should have listened to Tesla some more". So Tesla was such a great man in history, so why do you not know this, because the Jewish Controlled Media on Planet Earth a Spec in the Galaxy, had decided to push Tesla to the side and replace Nikola Tesla with Einstein and Elon Musk. The rest of Brian Ruhes Speaking is far out there and I can not say it, however, yeah, we have Alternating Current, Transformers, James Maxwell, Nikola Tesla, Transformers, Tim Burners Lee, Richard Stallman, Linus Torvalds, all here to build our modern age and our Internet and everything else, Phosphorescent Light Bulbs, Edison Light Bulbs, Fluorescents, and everything is here now and R\*\*\*\*ded Generation Zee is lost in space without blue collar jobs or any real skill sets of any kind, we are compartmentalized, lacking in any real trades or skills ... ;
